The Best Places to Work in the Federal Government® rankings—derived from the Federal Employee Viewpoint Survey data—reveal important insights about the state of your agency’s workforce. But, even with that knowledge, figuring out how to address employee engagement issues can be overwhelming.

The Partnership’s two-day Mastering Action Planning (MAP) training helps break down this challenge into manageable steps. We provide instruction on the foundations of action planning and teach you how to develop a customized “MAP.” During the course of the workshop, you will begin creating this vital resource that will guide your agency through the process of cultivating a more engaged workforce.
