LEADERSHIP EXCELLENCE FOR ACQUISITION PROFESSIONALS

Today's acquisition professionals need to combine technical execution with strong leadership skills to achieve agency missions. The Partnership's Leadership Excellence for Acquisition Professionals program is an opportunity for exceptional mid-level acquisition professionals to strengthen their management and business skills while building lasting interagency relationships.

Addressing a need identified by the Office of Federal Procurement Policy, the program strengthens the leadership skills of federal acquisition professionals through a combination of innovative coursework, peer collaboration, best practice benchmarking and facilitated dialogue with industry leaders. During the 9-month program, participants learn how executive communication, strategic thinking and stakeholder engagement play a critical role in leading agency operations.

Participants will:

- Develop skills needed to excel in the federal acquisition profession
- Engage with subject-matter experts from the public, private and nonprofit sectors
- Participate in capstone projects to reinforce lessons learned
- Become eligible to earn Continuous Learning Points (CLPs) upon completion of the program
- Gain access to resources, information and best practices from agencies across government

The Partnership for Public Service is a nonprofit, nonpartisan organization that strives for a more effective government for the American people. With our focus on innovation in public service, our leadership trainings and seminars are uniquely designed for federal employees.
