# Mission Support Leadership Program

APPLICATION DEADLINE: **SEPTEMBER 29, 2020**

The federal government’s effectiveness directly depends on the strength, expertise and leadership of its mission support—the acquisitions, financial management, human resources and information technology professionals. While their work is usually done behind the scenes, it is imperative to build the leadership attributes of these professionals because of their wide-ranging impact, the interconnectedness of their business functions and their ability to positively impact strategic decisions.

The **Mission Support Leadership Program**, designed for GS-12 to GS-14 federal employees in acquisitions, financial management, HR and IT, prepares these mission-critical federal professionals to become more effective leaders by focusing on the four core tenets of the Partnership’s Public Service Leadership Model—self-awareness, engaging others, leading change and achieving results. By the end of the course, participants are able to make values-based decisions, use their roles to build strong partnerships, identify how to drive positive impact within their organizations and demonstrate enhanced leadership attributes. **Participants will be placed in cohorts according to their professional track**, and the program includes plenary-style sessions where all cohorts join together and participate in cross-functional activities.
